

Powerful Literacy Instruction for All Learners

**Help students read,
write, and think like...**

historians,

scientists,

mathematicians,

and literary critics.

WestEd 
**Reading
Apprenticeship.**

Reading Apprenticeship utilizes a proven instructional approach to helping students critique texts and use knowledge like a disciplinary expert.

WestEd 
**Writing
Apprenticeship.**

Writing Apprenticeship helps teachers motivate students to write and revise their own texts for discipline-specific purposes and authentic audiences.

One apprenticeship approach. Reading and writing across the disciplines.

Reading Apprenticeship® and Writing Apprenticeship™ help teachers make the invisible work of disciplinary reading and writing visible. Through metacognitive conversation, students learn to notice, name, and strengthen the thinking processes they use to make meaning, build knowledge, and communicate for authentic purposes.
